

# Monitor 16

---

## Monitor Free Cooling System, 16 kW

- Reduces energy consumption and CO<sup>2</sup> emissions in excess of 90%
- Recoups investment in one to three years
- Can be used as a direct cooling system or to work with existing air conditioning installation
- Comprehensive alarms alert to issues with the system or the cabinet environment
- Real time and online telemetry and control

## Product Classification

**Product Type** Cooling system

## General Specifications

**Color** Standard RAL Colors available  
**Fans, quantity** 3  
**Finish** Powder coated  
**Installation Duration** 6 hrs  
**Installation Team, quantity** 3  
**Material Type** Galvanized steel

## Electrical Specifications

**Voltage** -38 Vdc | -58 Vdc

## Environmental Specifications

**Operating Temperature** -30 °C to +40 °C (-22 °F to +104 °F)  
**Qualification Standards** CE

## Regulatory Compliance/Certifications

**Agency**  
RoHS 2011/65/EU

**Classification**  
compliant
