## FF2HH-6533C-R5

## 12-Port Sector/multibeam antenna, $4 \times 617-894 \mathrm{MHz} 65^{\circ} \mathrm{HPBW}$ and 8 x $1695-2360 \mathrm{MHz} 4 \times 33^{\circ} \mathrm{HPBW}, 5 \times$ RET

- All Internal RET actuators are connected in "Cascaded SRET" configuration
- Enhances network capacity through six sectors on high band while maintaining low band coverage layer through three sectors with only three antenna faces
- Each High Band antenna down tilt can be independently adjusted for greater flexibility in network optimization

## General Specifications

## Antenna Type

Band
Color
Grounding Type

## Performance Note

## Regulatory Compliance/Certifications

## Agency

ISO 9001:2015

## Classification

Designed, manufactured and/or distributed under this quality management system

## Included Products

BSAMNT-4

BSAMNT-M4

* Footnotes

Performance Note

- $\quad$ Wide Profile Antenna Downtilt Mounting Kit for 2.4-4.5 in (60-115 mm) OD round members. Kit contains one scissor top bracket set and one bottom bracket set.
- $\quad$ Middle Downtilt Mounting Kit for Long Antennas for 2.4-4.5 in (60-115 mm) OD round members. Kit contains one scissor bracket set. Severe environmental conditions may degrade optimum performance
