

FIST Extension kit from a BC to BE closure, containing an extra UMS profile, clamp and BE dome

- Unique gel-based mechanical sealing option used on fiber splice closure ports for blown, standard, mini- and micro-cables
- Allows usage of multiple cable drops in a single closure outlet port, thus significantly increasing existing cable capacity
- Ideal for fiber cables with thin outer jackets that are difficult to seal with standard heat shrinkable sleeves

Product Classification

Regional Availability	EMEA
Product Type	Extension unit
Product Series	FIST-GC02

General Specifications

Application	For use with FIST-GC02 Fiber closures
--------------------	---------------------------------------

Packaging and Weights

Packaging quantity	1
